

Flow

FLOW - DESIGNED BY PAUL ROGERS DESIGN STUDIO

Its name, "Flow," captures the essence of its form—a dynamic, seamless harmony of bold, elegant, and organic elements that redefines the very concept of modern seating. The deep, rounded contours of the Flow Sofa draw the eye and invite touch, evoking a sense of visual and tactile delight. It's a design that speaks of both confidence and sophistication.

These soft, inviting lines are consistently present throughout the entire collection, which comprises a variety of modules that can be artfully arranged to create linear, angular, or uniquely shaped compositions. You can mix and match modules to create a configuration that suits your lifestyle, whether it's an intimate two-seater or a sprawling sectional for entertaining guests.

CUSHIONS

The cushions for this sofa come as they are displayed on the module images in this fact sheet.

The size of the cushions is 52X42 cm.

MATERIAL & CONSTRUCTION

Seat and back frame made in solid beech wood. Back frame is covered with coldfoam filling and wadding. Seat is made with zig-zag springs, felt, cold-foam and wadding. The module is upholstered in high-quality textiles. Modules are kept together with connecting metal brackets.

Different upholsteries may have different looks, and some fabrics may wrinkle slightly around the curved seat.

CARE & MAINTENANCE

For textile upholstered versions: In case of stains, we generally recommend removing non-greasy stains by carefully dabbing with a lint-free cloth or sponge wrung out in clean warm water. If necessary, clean by dabbing with soapy water made with a little dish soap. Finally, dab the surface with clean water.
