

Cocoon

COCOON - DESIGNED BY JONAS VAN PUT

The cocoon sofa derives its design language from the protective cocoon of the silk butterfly.

This emotive and formal reference came to life during the intuitive and manual sculpting of a scale model of the sofa. The sculptural shell folds around its temporary occupant in natural soft curves, while the tactile wide straps composed of semicircles, naturally support the human body. A distinctive detail unfolds at the back where the vertical straps merge into the horizontal ones.

CUSHIONS

No cushions are included with this sofa, as the sofa is already comfortable without them.

You can always choose to order additional cushions for extra comfort or decoration.

MATERIAL & CONSTRUCTION

Seat and back frame made in solid beech wood. Back frame is covered with coldfoam filing and wadding. Seat is made with zig-zag springs, felt, cold-foam and wadding. The module is upholstered in high-quality textiles. Modules are kept together with connecting metal brackets.

Different upholsterys may have different looks, and some fabrics may wrinkle slightly around the curved seat.

CARE & MAINTENANCE

For textile upholstered versions: In case of stains, we generally recommend removing non-greasy stains by carefully dabbing with a lint-free cloth or sponge wrung out in clean warm water. If necessary, clean by dabbing with soapy water made with a little dish soap. Finally, dab the surface with clean water.
