

Noma

NOMA- DESIGNED BY CAS MOOR

The Noma Modular Sofa takes its inspiration from the architectural beauty of Japanese wooden houses. Just like these time-honored structures, the Noma Sofa incorporates clean lines, elevated base, and a harmonious design that embodies simplicity and balance. Its minimalist form and thoughtful details reflect the Zen philosophy, creating a calming and inviting atmosphere in your home.

One of the standout features of the Noma Sofa is its modular design. You have the flexibility to customize your seating arrangement to suit your space and needs. Choose from various configurations, including single-seat units, lounge modules, and spacious corner sections. With Noma, your living room becomes a canvas, allowing you to arrange and rearrange as you see fit.

MATERIAL & CONSTRUCTION

Seat and back frame made in solid beech wood. Back frame is covered with coldfoam filing and wadding. Seat is made with zig-zag springs, felt, cold-foam and wadding. The module is upholstered in high-quality textiles, with a thin lining of down underneath. Modules are kept together with connecting metal brackets.

Different upholsteries may have different looks, and some fabrics may wrinkle slightly around the curved seat.

CARE & MAINTENANCE

For textile upholstered versions: In case of stains, we generally recommend removing non-greasy stains by carefully dabbing with a lint-free cloth or sponge wrung out in clean warm water. If necessary, clean by dabbing with soapy water made with a little dish soap. Finally, dab the surface with clean water.
